**DETAILED ACTION*****Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The examiner finds the inventive step to be awarding a share of the jackpot to each entry in which none of the first subset of numbers matched the second subset of numbers and the difference between each of the corresponding numbers in the first and second subsets of numbers is equal, as in Claim 3; awarding a share of the jackpot to each entry in which none of the first subset of numbers matched the second subset of numbers and none of the numbers in the first subset match any of the numbers in the third subset, as in Claim 4; and awarding a share of the jackpot to each entry in which none of the first subset of numbers matched the second subset of numbers, the jackpot is greater than a predetermined maximum amount, and fewer than all of the numbers of the first subset match numbers of the second subset, as in Claim 6. These methods of awarding portions of the jackpot are unusual and not suggested by the prior art. The closest prior art merely discusses dealing consolation prizes to those who do not win the jackpot. The examiner respects that the applicants may have different reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

2. The objection to Claim 1 is withdrawn. The amendments to the drawings and specification are accepted and found to have no new matter. The objection to the drawings is withdrawn. The restriction is final as all of the elected claims from Group I are now allowable, and all of the non-elected claims (Groups II-IV) are cancelled. The applicants can file a divisional application before the present application issues.

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. patent publications 2006/0178197 A1, 2002/0037766 A1, 2004/0229676 A1, 2005/0035547 A1, 2006/0252488 A1, 2006/0214376 A1, 2004/0152510 A1, 2004/0152505 A1, 2004/0152504 A1, and 2003/0013516 A1 are considered to be relevant as they mention awarding consolation prizes when there is no match. WIPO publication WO 95/12181 A1 is considered to be relevant as it mentions consolation prizes in lotteries.
